We would like to invite all PhD students who wish to meet Sammy Bedoui to sign up for the “Meet the expert over coffee” that will take place on June 20, 2018 at 3:00 pm (15:00 Uhr).

Do not miss the opportunity to interact with an inspiring scientist who conducts top-quality research in the field of immunology. The purpose is not only to talk about science, but also about career choices (e.g. working in Australia), work-life balance, and anything that comes to mind.

Join first the seminar by Sammy Bedoui entitled “Innate regulation of CD8 T-cell immunity” (10:00 am, Frauenklinik, lecture hall) and meet him afterwards over coffee in the Kasino (Dermatologie, Gebäude 11, Raum 506/11 Erdgeschoss).

You can find more information about him and his research here: https://www.doherty.edu.au/people/sammy_bedoui

Details
There is no agenda and no expectations, this is meant to be completely relaxed and informal. However, we need to control the number of guests, so please register by June 8, 2018 by sending an e-mail to bmaxis@uni-bonn.de.
